Welcome to the Farm!

Welcome to the Youth Enrichment Center at Hilton-Winn Farm. Our mission - to provide a country farm experience to enrich the hearts, minds, and spirits of children.

Our youth groups and public programs have provided hundreds of children and their families with environmental, educational, and positive youth development activities aimed at fostering a sense of stewardship and personal connection to the natural world and to one another.

At the Youth Enrichment Center at Hilton-Winn Farm, we strive to bring children to the outdoors for fun, fresh air, and a chance to grow and learn from the natural world around them. We are dedicated to shaping the leaders of our future through cooperative efforts that will teach young people about caring for and appreciating nature.

See you on the Farm!

The Youth Enrichment Center at Hilton-Winn Farm is a 501(c)(3) nonprofit organization. Donations are tax deductible.

Program Details

Through our daily nature activities and exploration your child will:

- Learn about identifying various trees, plants, birds.
- Understand farm to table through planting, nurturing, harvesting and eating garden vegetables.
- Appreciate different animals & ecosystems through animal care, tracking activities, observation & art.
- Exploration of nature through use of natural materials for crafts & projects.
- Physical activities through daily hikes & games.
- Exploring surrounding fields & forests.

Other planned activities include:

Scavenger hunts, Trail making, Fairy house building, Recycling, Special guests, and Planned daily themes

Our History & Staff

Nancy Breen is the Director of the Youth Enrichment Center (YEC) at the Hilton-Winn Farm, and holds a degree in Early Childhood Education from Colby-Sawyer College. In 2002, she purchased the beautiful property in order to establish a place where Children could experience nature and participate in farm-based educational activities. Included in our enthusiastic qualified staff are Eva Diharce, M.S., CCC-SLP Speech and Language Pathologist, Izzy Kramer, Wheaton College Graduate (Psychology / Sociology Major), Barbara Early Graduate of UNH with a Masters in Elementary Education, and Louise Breen Brown university graduate.

YEC programs are aimed at fostering growth in teamwork, communication, tolerance, and self-esteem building.

The Farm provides the ultimate natural setting for this magical experience. 48 Acres of fields and forest surrounded by 225 acres of conservation land provide both a safe, beautiful setting and a wonderful space in which to grow.

The goal of the Summer Fun Program is to use our surroundings to convey the importance of nature and our environment. This will be done through carefully planned activities and projects that build upon creativity and teamwork and are just plain FUN!

Program Information

Our Program runs for three sessions in July, beginning on the following Mondays: July 6th, July 13th, and July 20th. Come for one 4-day session or take advantage of all we have to offer by enrolling in all three! The program runs from 9-2:30, Monday through Thursday.

We can accommodate children from the ages of 4 through 13. Children will be placed into similarly aged groupings to appropriately tailor activities. Low child to instructor ratio. Staff includes certified teachers and trained volunteers.

Snacks, lunch and drinks are provided each day with active participation from the children. We have a wonderful garden that offers nutritious, healthy produce daily. We strive to provide wholesome and fulfilling foods to nourish the body and soul, as well as food that your kids will want to eat. The farm-to-table example provided each day is an invaluable lesson. We are well-versed in food allergies and any needed accommodations can be easily made.

Please detach and return

Registration
